Book Synopsis

Learn How To Build A Successful Online Business Benefits: Quit Your 9-5 job, Be Your Own Boss And Much More Ever imagined how life could be if you made money on your own terms without being a slave of time to boost some company's annual turnover or net profit? Don't you feel sick every Sunday evening when you realize you have to wake up to a job you hate the next morning? How would you feel if you had greater lifestyle freedom, creativity, higher income and more time with your family? How would you feel if you had the power to choose when to work and when to simply take off for a trek in the mountains? How would you feel if you could actually work anywhere from a cruise to a swanky five star property? Online businesses give you all of this and more. They rescue you from the 9-5 grind and help you enjoy a life of freedom and fulfillment. Online ventures also allow you to think beyond the "bucket carrying" syndrome to build a pipeline of passive income. In tradition jobs, your earnings are proportionate to the time you invest in your job. You put in a fixed number of hours, and get paid for those many hours. However, in passive income ventures, you create virtually inexhaustible sources of income and get paid far more than the time and effort put into it. For instance, you research and write an eBook once, and get paid a royalty amount each time someone purchases it. Similarly, you create a valuable blog resource on a specific topic, and keep enjoying advertising or affiliate marketing income on it for years. Online businesses do not bind your life in time. Sometimes, you have all the money in the world to enjoy the finer things in life, but you are so busy making that money that you lose out on the time to enjoy it. Other times, you have all the time in the world to enjoy the good things in life, but no money for spending in leisurely pursuits. Online businesses can give you true financial freedom, which is having both the time and money to enjoy life. Preview Of What You ll Learn...
